

*Dear Parents,*

**URGENT: Change of text messaging service**

From today (15.7.20), our text messaging service is changing from PS Connect, **to ParentPay**.

Every family should have a ParentPay account, even if no money is paid into it. If you have not yet registered an account, this must be done immediately – contact Mrs Medcalf if you have a problem with this.

Please login to your ParentPay account to check the following:

- That you have registered each of your children separately (this means we can direct messages to specific classes/ groups etc.)
- That you have registered a mobile phone number – we have been sending emails through your account, but we cannot message you without a mobile number and you may miss important information and reminders

Your support in this matter would be greatly appreciated, particularly during the current changing times.

*Mrs Dunn*
